Valle del Este
Almeria, Spain
Par 71, 5828 metres

Valle del Este opened in 2002 and was designed by José Canales, who integrated the course into the surrounding landscape by making use of natural vegetation. There is a good combination of very challenging holes, with other less strenuous holes. The raised tees are surrounded by volcanic rock making for a very surreal golfing experience. The wide fairways tempt the golfer into using the driver but with large sand bunkers as well as three lakes, the wrong shot will get you in trouble. The Valle del Este hosted the 2013 European Father and Sons Golf Championship.
