

## Vilamoura Laguna

Algarve, Portugal

Par 72, 6133 metres

Hole 5

Water hazards are a predominant feature of vilamoura laguna and along with strategically placed bunkers and very open and often windy fairways provide a challenge to players of all abilities.

A challenging par 5 starts you off here needing both a good drive and a good second shot leading to a very well protected, sloping green. The par 4 5<sup>th</sup> creates the next challenge with a lake and overhanging trees to contend with as well another protected and sloping green.

The back nine starts again with a par 5 that should not cause too many difficulties. However, when you reach the par 3 12<sup>th</sup>, wind and water will come into play and it is vital that you select the right club. With a dog-leg to the right and a tight landing area between bunkers and a lake, the par 4 14<sup>th</sup> will challenge even the lowest handicappers. The final approach to the green is then over water. Water comes into play once again at the par 5 15<sup>th</sup>, as it cuts across the fairway.

- **Par:** 72
- **Course Distance:** 6133
- **Course Designer:** Joseph Lee
- **Mens Handicap:** 28
- **Ladies Handicap:** 36
